Resource Authorization Categories

Student Learning Resources

Basic learning resources are those student learning resources authorized by Alberta Education as the most appropriate for addressing the majority of learner expectations of the course(s), substantial components of the course(s), or the most appropriate for meeting general learner expectations across two or more grade levels, subject areas or programs as outlined in provincial programs of study. These may include any resource format, such as print, computer software, manipulatives, video.

Support learning resources are those student learning resources authorized by Alberta Education to assist in addressing some of the learner expectations of course(s) or components of course(s); or to assist in meeting the learner expectations across two or more grade levels, subject areas or programs, as outlined in the provincial programs of study.

Teaching Resources

Authorized teaching resources are those teaching resources produced externally to Alberta Education (for example, by publishers) that have been reviewed by Alberta Education, found to meet the criteria of review and to be the best available resources to support the implementation of programs of study and courses, and the attainment of the goals of education; they have been authorized by the Minister. Teaching resources produced as service documents by Alberta Education, such as teacher resource manuals (TRMs), diagnostic programs and monographs, are authorized by definition.

Note:

The **School Act**, Statutes of Alberta 1988, Chapter S–3.1, as amended, indicates that a school board may develop or acquire instructional materials for use in programs or in schools. Selection of instructional resources is not restricted to those authorized by Alberta Education. [Refer to section 44(2)(a.1).]

Carol's Mirror: This 14-minute video challenges the use of Eurocentric materials and shows how prejudice, racism and cultural expectations place limits on what people can do with their lives. In the story, Carol is interested in playing the lead in her school play. The only problem is that the school puts on Show White every year, and Carol is not white.

Walker: This 13-minute video challenges racist attitudes toward Aboriginal people and shows how children from different backgrounds can form friendships. In the story, Walker is an Aboriginal foster child whose only playmate is his dog. Walker would like to make friends with Jamie but Jamie is afraid of him and his dog.

Hey, Kelly: This 15-minute video focuses on the harmful and hurtful effects of racism and name calling. In the video, while playing a schoolyard game, Robert calls Kelly a name and a fight ensues. During the detention, they find out they're not so different after all.

Mela's Lunch: This 14-minute video shows that differences in skin colour and country of origin need not be an obstacle to friendship or self-esteem. In the story, Mela, a recent immigrant from India, is trying to make friends and get used to her new surroundings. Her classmates make her feel unwelcome and out of place.
